Haircut and Beard / Razor Finish 75

With our beard sculpting services, we will closely analyze your beard growth, face shape, and hair texture then use the best techniques to help you achieve the best beard you have ever had!

Hot Towel Razor Face or Head Shave 65

A classic straight razor shave. Begin with two steaming facial towels to soften the beard and open your pores. We apply warm pre-shave oil, continue with a full lathering and complete an initial shave along the grain of your beard. After re-lathering, we shave against your beard grain, if preferred. We finish with a cool facial towel and aftershave application

Haircut / Hot Towel Shave 85

Our haircut service infused with our hot towel shave service is sure to please leaving you refreshed and ready for your big day.

Fresh Neck Shave Free

Nothing complements a men's haircut quite like a professional neck and beard trimming, we know a well-defined and well-maintained beard neckline makes almost any style look sharper. Every service will be topped off with a complementary neck shave along with cleaning of the ears and eyebrows if desired.
